Cookie Crumbl Spring Collection

Who doesn't love spring? Well I don't due to allergy season. My eyes get red and itchy and my nose gets all stuffy. God I hate spring, I say many people would agree with me. The only good thing about this spring season is Cookie Crumbl releasing its new spring menu. Each season has its own color pattern. Summer has orange and yellow, fall has brown and winter has blues and whites, and of course springtime has all full pastel colors. Cookie Crumbl used those colors to promote their new menu. Which is pretty smart. To start off with their menu, Confetti Cake; A burst of confetti sprinkles in a sugar cookie, topped with pink vanilla cream cheese frosting. Another amazing cookie they added is Dulce De Leche; A deliciously spiced cinnamon cookie smothered in layers of creamy dulce de leche caramel and frosting. As well as Raspberry Danish; A buttery, danish-inspired cookie baked with a cream cheese topping, finished with raspberry jam and a drizzle of thick vanilla glaze. Another delicious cookie they added Oatmeal Raisin; A chunky oatmeal cookie bursting with sweet, delicious raisins. And finally a most likely favorite flavor, Brookie; A semi-sweet chocolate chip cookie and a rich chocolate cookie perfectly baked together. I say this week's menu is a most likely favorite menu with all the different cookie flavors. After having to take a pill to get rid of the redness of your eyes and nose due to allergies, remind yourself to treat yourself with a delicious cookie from Cookie Crumbl.
