### Luis Rodriguez Interview

Today, I spoke with Luis Rodriguz, a freshman at the Dominican University of California; Luis was born in Glendale, California where he previously attended Glendale High School. He described the campus atmosphere as lively and social. At Dominican, Luis is on the Men's Lacrosse team. He plays midfield. He was encouraged to come to Dominican University because of the lacrosse team and the kinesiology program. He balances academics and lacrosse by focusing on academics first then gradually lacrosse gets easier. His favorite place in Marin is Conzelman Road where he likes to go on drives.
