FC Barcelona's Strong Start to the 2026-27 Season

FC Barcelona has started their 2026-27 campaign in a strong way. With the third year German manager Hansi Flick, the team has been playing fluid and organized attacking soccer that has resulted in more goals being scored. So far Barcelona hasn’t lost in their seven La Liga games and their UCL season debut. One of the biggest strengths of the team this year is the attacking firepower and depth they have and the danger they impose while attacking. The team has scored 36 goals in eight games; their best start since the 1935-36 season. It's quite impressive how they arecreating chances while still controlling the game and not letting it become chaotic.

A lot of players have played important role so far, but the two that stick out are Raphinha and Lamine Yamal. Raphinha has scored 12 goals in the first 7 games of La Liga. This past weekend he scored his second hat trick in a row in a 3-1 win over Sevilla. Yamal the 19 year old sensation has been nothing but sensational. He has been creating chances while scoring as well.

The club has produced some dominant results like 5-0 vs Elche, 5-0 vs Valencia, 7-2 over Racing Santander, and a 5-1 win in the UCL vs Feyenoord. Although it is still early in the season, the depth of talented players on the team and the soccer they are playing makes them a strong candidate for multiple titles.
