

Ousmani Willimas - Current Events/ Baltimore bridge - 3/26/24

On Mar 26, 2024 Baltimore Maryland suffered a tragic disaster when a cargo ship hit and took down the Francis Scott Key bridge taking the lives of 6 and rescuing 2 with it. This is a tragic incident only compounding everything else going on in the world such as elections, Israel and Palestine, and the battle over immigration and immigration policy in the country. I hope that the city of Baltimore can recover from an event like this. I can only imagine what would happen if the same happened to the Golden Gate or the Bay Bridge.
