West Bay, Roatán, Honduras

The final installment of this column will be highlighting another Central American travel deal you won't want to miss out on in Roatán, Honduras!

Roatán is the largest and most populous of The Bay Islands that lie off the coast of continental Honduras. Since it is in the Caribbean you can also expect a tropical climate and panoramic views of bright blue seas. The island itself is only 40 miles long by five miles wide, so travel from place to place is relatively convenient.

When visiting you must check out the beautiful white sand beaches. A fan favorite is [West Bay Beach](#). It is rated the #1 thing to do in the West Bay of the island and offers snorkeling, scuba diving, parasailing, fishing, and more.

Another popular activity is to experience the jungle on a ziplining excursion. [The West Bay Beach Resort](#) offers ziplining and nature tours where you can meet monkeys, sloths, and macaws for just \$38 per person.

Flight and living accommodations for travel to the West End for one week can cost [under \\$1000](#) per person, making it relatively affordable to travel to.

If you're looking to plan a Caribbean vacation, make sure to explore Roatán, Honduras. Safe travels!
