As the semester comes to an end most student athletes and students will say it flew by in a blink of an eye. Speaking for student athletes, getting up early each morning, practicing in the freezing cold and working the body to the max, each day may seem long and tiring but the months are short. Which is true! All fall sports have come to an end and are now rolling into winter.

Soon enough spring sports will come into play and it will be the last semester of the 2023-2024 school year. College does go by in a blink of an eye and even when it seems like it's stressful and a lot, it's important to cherish the moments and opportunities given to you!
