A theater experience you won’t want to miss

If you're looking for a fun movie watching experience with plenty of Easter eggs throughout the building then Cinelounge is the place for you. Only around a 20 minute drive from San Rafael over in Tiburon this convenient location makes it even more worth it. All the theaters are pulled straight from their own movies and themed accordingly. The lobby and walls are decorated with memorabilia, quotes and pictures of decades of films. And the snacks are a great bonus.

The main attraction of this theater is the seating situation. Instead of the traditional reclining single seats, they have full length couches with cupholders! You can choose to get a multi seat couch or just stick with one comfortable lounge chair but either way it feels as if you're watching from the comfort of your own home. All in all this is an experience you wouldn’t want to miss out on.
